

Winner of Intel EPIC Distinguished Supplier Award 2023

2023.06.27

KOKUSAI ELECTRIC CORPORATION (President and CEO: Fumiya Kanai, Head Office: Chiyoda-ku, Tokyo, Japan) has won Intel's EPIC Distinguished Supplier Award for 2023. Through our commitment to improving the quality of EPIC(Excellence, Partnership, Inclusion, Continuous), we were praised for consistently outperforming Intel's expectations.

The Intel EPIC Distinguished Supplier Award qualifies only a few hundred of the thousands of Intel suppliers worldwide to participate in the program. The EPIC Distinguished Supplier Award is the second-highest honor an Intel supplier can achieve, and in 2023, only 22 suppliers in Intel's worldwide supply chain network were awarded.

In the future, KE Group will continue to strive to improve product performance and quality based on trusting relationships with our customers.
