

Participated in the Samsung Electronics DS Division Supplier Safety Management Competition

2023.07.12

We participated in the 2023 DS Division Supplier Safety Management Competition organized by Samsung Electronics and won the Encouragement Award. In accordance with the Korean Occupational Safety and Health Act, we and Samsung Electronics jointly operate a safety and health council, and our proposed improvements to work hazards were highly appreciated.

Approximately 500 companies participated in this Safety Management Competition, and we are honored to have won the award among so many partner companies.

In the future, we will continue to strengthen our trust relationship with customers by making "Safety First" our top priority.
